

2¹/₂" VIBRATING AC INDOOR BELLS

Three models available

2¹/₂" VIBRATING AC INDOOR BELLS

The W.L. Jenkins Company's 2¹/₂" vibrating AC indoor bells are designed to provide a quality compact low cost bell with lower ring volume as compared to the volume of the 4¹/₄" Supering indoor bell.

FEATURES

- Small size
- High dB output for its small size
- Low current drain

APPLICATIONS

The W.L. Jenkins Company compact 2¹/₂" vibrating AC bells are ideally suited for O.E.M. equipment, offices, apartments, industrial and other applications where a low volume bell sound is desired.

- **Industrial** pressure and temperature warning systems on control panels for O.E.M. manufacturers
- **Institutions** school, government and correctional facilities, hospitals and financial institutions
- **Manufacturing** audible signal to indicate conveyor stoppage or equipment failure
