

STH HORN/STROBE & 31-T HORN

STH

Series 31T

HORNS AND STROBE HORNS

High performance horns and strobe horns are ideally suited for industrial signaling applications where high sound output, low current draw, and dependable operation are essential. These units are also available with optional single or twin sound projectors.

FEATURES

- Tamper-resistant construction
- Resonant grille design – for high sound output
- Various mounting options
- Cost effective
- Easy installation

APPLICATIONS

Economical audible and visual signals for the following:

- **Manufacturing** audible and visual signal for overhead cranes and conveyor systems
- **Industrial** wherever high noise and high intensity areas require immediate attention
