SUPER-FLASH - INDUSTRIAL & SAFETY WARNING LIGHTS

In today's environment, with the increase in critical situations, it is most important to provide the correct warning signal light for emergency, security, construction and industrial vehicles.

The W.L. Jenkins Company **SUPER-FLASH** warning lights, with the many and varied models, offer the opportunity to select the proper light for the particular application.

FEATURES

- Rugged Construction
- Indoor/Outdoor
- Brightly Illuminated
- Compact Design
- Low Current Drain

APPLICATIONS

The W.L. Jenkins lights are unique in design to fit the following:

- **Manufacturing** visual communication signal is used wherever high ambient noise or high activity levels are present
- **Industrial** ideal usage for fork lifts, maintenance vehicles and caution areas where danger may exist
- **Life/Safety** visual signal to alert pedestrians of oncoming emergency vehicles or material handling conveyors in progress

SUPER-FLASH INDUSTRIAL & SAFETY WARNING LIGHTS

Ordering Information and Specifications

ROTATING REFLECTOR BEACON
Model JR-2
6¹/₂" High, 5⁵/₈" Dia.

- Most economical
- 25 Watt Bulb
- 90 flashes per minute - 360°
- Polypropylene housing
- Indoor or outdoor use
- 117 Volts AC only
- Red, amber, blue, green, on clear acrylic dome (specify)
- Mounting – 1/2" E.T.W.
- Applications: Alarms, traffic control, schools and hospitals, warning systems, industrial warning systems

MIDI-STROBE
Model JS-3
6¹/₂" High, 5⁵/₈" Dia.

- Solid state electronic light
- Compact design
- 60 flashes per minute - 360° lens
- 117 Volts AC low current drain under 1 amp
- Red, amber, blue
- Mounting – 1/2" E.T.W.
- Applications: Alarm systems, security, industrial warning systems

ELECTRONIC STROBE
Model JS-2
9¹/₂" High, 8¹/₂" Dia.

- Solid state electronics
- Xenon flash tube
- High intensity 1,000,000 C.P
- 75 flashes per minute
- 117 Volts AC low power drain .6 amp
- Glass filled polypropylene housing
- Mounting – 1/2" E.T.W.
- Red, amber, blue, green or clear
- Applications: Monitoring traffic control, school and hospital warning systems, general alarm systems

REVOLVING REFLECTOR
Model JR-3
9¹/₂" High, 8¹/₂" Dia.

- 90 flashes per minute - 100 watt bulb
- Long range beam
- Indoor or outdoor
- Polypropylene housing
- Tamper proof dome clamps
- Red, amber, blue, green or clear (specify)
- 117 VDC and 220 VDC (specify)
- Mounting – 1/2" E.T.W.

SUPER-FLASH INDUSTRIAL & SAFETY WARNING LIGHTS

MULTI-LENS ROTATING BEACON

Model JR-9

9¹/₂" High, 8¹/₂" Dia.

- Attracts attention to Drive-ins, Retail Stores and Industrial Warning Systems
- A.B.S. housing suitable for indoor & outdoor use
- Alternating Clear and Amber beams of bright light, weatherproof anodized aluminum housing
- 100 watt clear bulb, 360° visibility at 60 flashes per minute
- 1/2" ETW mounting
- Current draw, .85 amps at 110/120 VDC
- Clear Acrylic Dome available
- Optional unbreakable Lexan® domes available
- Optional 220/240 VDC models available
- 9¹/₂" high, 8¹/₂" diameter, Shipping Weight, 8 lb.

TWIN SEALED BEAM

Model JSB-2

9¹/₂" High, 8¹/₂" Dia.

- Twin sealed beams 35,000 C.P. each
- Polypropylene housing
- 75F.P.M.
- 117 Volts AC and 12 Volts DC (specify)
- Red, amber, blue, green or clear (specify)
- Mounting 1/2" E.T.W.
